

Brooklyn School
Vision for *Inclusion*

All members of the Brooklyn School community are responsible for and involved in the success of all students. We accept, value, and celebrate individual differences. Working together, we form a network of support and service that provides each student with the means to grow educationally, socially, and emotionally.

- **Inclusion** is a natural extension of best educational practices to increase success for each individual student.
- **Inclusion** involves collaboration and equally-shared responsibility between all community members.
- **Inclusion** provides opportunities for all community members to be heard and respected.
- **Inclusion** is dependent upon a system of ongoing support and professional development opportunities.
- **Inclusion** is supported by visionary leadership and educational partnership between school and community.
- **Inclusion** provides social opportunities which promote positive and accepting relationships for all students.
